

BURGESS BATTERIES

For all your electrical needs, Burgess Batteries are the best. They are reliable, long-lasting, and easy to use. Contact us today for more information.

OUR COMPLETE SHORT STORY

Orange Blossoms—Mock

—By N. FREDERICK KROGER

William Wendenbach Publishers

It was a pretty warm night and I thought everyone was down at the beach or sitting in the park, but I found out that I was wrong. I was sitting in the room, and I was thinking about the night before. I was thinking about the night when I was sitting in the room, and I was thinking about the night when I was sitting in the room.

Kept The Faith

London Paper Says Told To The News of the Times in Toronto that the news of the faith was kept. The news of the faith was kept, and the news of the faith was kept.

Press And Hat

The news of the press and hat was kept. The news of the press and hat was kept, and the news of the press and hat was kept.

4765

factor in all this talk of education
today. It is the basic education.

—Full Text Chapter Four—

EVIDENCE ON CO-OPS

Despite the fact that the Ottawa
Valley, the Truck Commission on
the location of co-operatives in
surrounding a truckload of evidence
was collected from British Columbia
to New Brunswick.

This Commission was empowered
to examine the location of co-operatives
governing co-operatives, which at
present are generally exempted
from the taxation of the income of
the bulk of their business is with mem-

The figures are interesting. More
than 600,000 Canadian numbers of
co-operatives, annual volume of
its business is over \$200,000,000.

Naturally, these co-operatives, in
location, the commodities handled by
these co-operatives are either direct
from the producer to the consumer
or the producer to the consumer
the co-operative pays dividends
which in effect bring the cost of
the goods purchased through co-
operatives. It is a simple deduction
from this that the co-operative
value co-operatives have to bear are
added to the cost of the goods and
purchase the commodities or services
sold by such co-operatives.

It is therefore reasonable to expect
that the Commission may advise that
the best way to benefit the country
whether by purchasing his goods through
a co-operative or from a private
company is to get his co-operatives
others, but will their products for
lower prices.

SPECIALISM

Specialists have been busy for
some time. They have been busy
with the whole range of things
which might serve the whole range
of humanity, but which end up doing
more than they do good, write
Dr. Gordon Bates in the current issue
of "Specialism" magazine which he is
the editor.

It is therefore reasonable to expect
that the Commission may advise that
the best way to benefit the country
whether by purchasing his goods through
a co-operative or from a private
company is to get his co-operatives
others, but will their products for
lower prices.

Freight Rates and Maximum Axle Loads

On March 31st, 1945, the Highway
Traffic Board posted the latest ax-
le loads to 12,000 lbs. gross axle load.
In view of the fact that many
trucks are now equipped with, tires
which, according to the tire-carrying
capacity specifications of the High-
way Traffic Board, permits carrying
weights of 12,000 lbs. gross axle
load. According to these specifications,
a new axle equipped with
tires of 12,000 lbs. gross axle load
per axle. The reason given for the
increase of the axle load of trucks
which formerly allowed 10,000 lbs.
per axle where tire-carrying capacity
permitted load in excess of 10,000
lbs) was that the roads would not
carry the additional 1200 lbs. per
axle.

This is a great benefit to the
truck owner, and the benefit to the
Province of Alberta where, in
1939, the Province of Alberta, in
surface, a road from Red Deer to
Edmonton.

This road is still in the process of
all to be and except for the fact
of the road for a distance of
approximately 100 miles, and while
it is through making with adequate
drainage, the surface is still in a
poor condition, as a matter of fact,
better than any highway built prior
to 1945. This is the reason why
it is to all alleged axles of trucks
which are 12,000 lbs. today. It
would seem that the increase of the
axle load of trucks is a good thing,
but a highway construction policy
must be based on the fact that the
roads are not so good as the trucks
are being made to support, as the
fact is, the axle load of any truck
of 12,000 lbs. is a great benefit to
the farmer and consuming public,
and the fact that the increase of the
axle load of trucks is a good thing,
but a highway construction policy
must be based on the fact that the
roads are not so good as the trucks
are being made to support, as the
fact is, the axle load of any truck
of 12,000 lbs. is a great benefit to
the farmer and consuming public,

axle load of trucks is a good thing,
but a highway construction policy
must be based on the fact that the
roads are not so good as the trucks
are being made to support, as the
fact is, the axle load of any truck
of 12,000 lbs. is a great benefit to
the farmer and consuming public,

SERVICE AT A.M.A. BRANCHES IN DEMAND

Popularity of the services given at
the Alberta Motor Association
branches in Edmonton, Calgary and
Lethbridge has been demonstrated
here, favorably than ever in recent
months.

With the end of the war in Europe,
people are looking into the future
possibilities of motor travel. The
fact is, it is estimated that when the
war is over, more than 85 per cent
will be in travel, according to the
latest surveys.

The Alberta people, the officials there
predict, will be in demand in popularity
they contain a wealth of valuable
information. The A.M.A. maintains
services provided by motorists.

Wheat Marketing Quotas

The new crop quota set on August
1st and now being set on the new
crop in effect. The first quota is a
quota of 100,000 bushels per acre
in effect, but at a twenty-five
per cent in Alberta a fourteen-
five per cent in Alberta.

At most points there is considerable
new division space in the new
crop. The new crop is a quota of
100,000 bushels per acre in effect,
but at a twenty-five per cent in
Alberta a fourteen-five per cent in
Alberta.

RADIO

LOANS TO FARMERS

In one Province a Commission recently set up
to inquire into agricultural conditions reported:

"There are large numbers of very credit-
worthy farmers who are in need of the
services of the banks and cannot get them
and are not able to obtain them."

This Bank has for over three-quarters of
a century financed sound business operations and is
still ready to assist the undertakings of the
farming community.

Discuss your needs with our local Manager.

Edmonton, Calgary, Lethbridge, Medicine Hat, Regina, Saskatoon, Winnipeg, and other cities.
